Reggazoni Turns to the Dark Arts

Chris "Reggazoni" Clay has been chosen to play the part of the Droid ICFA in Spielberg's 7th Star Wars movie.

Why is he dressed as a chocolate bar and who is the washing machine

It looks like the Belvoir Boys have inherited another "Luvvie" after Reggazoni was pictured during filming at Shitterton Studios. This is his second role in main stream film his first was playing an "an Old Fart in Gone with the Wind".

It has also come to the Editor's attention that the actor mentioned above was caught fondling David Coulthard's helmet; we have managed to obtain a photograph from our contacts within the Police Serious Crime squad. If this goes to Court he could be banned from wrapping himself in *Bacofail* for at least five years.

Reggazoni attempting to defecate into DC's helmet in an attempt to show his disgust after Coulthard's two ae endings in two races.**

Shropshire Model Show

The Scalemodelworld advance party consisting of The Godfather and Regazonni made a visit to RAF Cosford on Sunday the 6th of April it was an uneventful journey down there in the snow apart from the five or six vehicle crashes observed on the way down. The boys made in good time and from later reports had missed the carnage on the M6, the weather improved and the sun came out the bloody place was packed probably because it was free unfortunately our Breakfast Shed was closed so we didn't get a good fry up. Time moved on a pace and it was quarter to four before we realised, but in all in all a successful day.

Postman tackles the Coast to Coast Walk

II Postino gets his kit ready for the Coast to Coast Walk.

A POSTMAN and Fashion Consultant for Belvoir Model Club will soon be swapping his post bag for a rucksack to tackle the famous Coast to Coast Walk.

Mark Beecham, 41, of Alma Park Road, will walk the 192-mile route in May to raise money for Help For Heroes, a charity which supports British soldiers wounded in battle. Mark, who has been a postman in Grantham for 20 years, said: "The idea's been in my head for about 10 years along with purving and models and it's something I've always wanted to do. "The opportunity presented itself and I noticed a charity in the press which I thought it would be great

to raise money for. "I was in the TA for about five years and that's part of the reason why I've chosen Help For Heroes."

The route was made famous by British hillwalker and writer Alfred Wainwright.

Starting in St Bees, Cumbria, Mark will walk through the Lake District, the Yorkshire Dales and the Yorkshire Moors, finally coming to the end at Robin Hood's Bay, in North Yorkshire. He anticipates the adventure will take up to two weeks, and he plans to stay in youth hostels along the way. He said: "I'm really excited about it and I have absolutely no faith in my map reading and always getting lost but I have been carrying out training with Torpedo who with the aid of his Sat Nav can now find his way out of car parks.

"I'm really looking forward to walking through the Lake District because the views are spectacular."

Mark will be accompanied on the last leg of his journey by the renowned Sugar Beet expert and Sheep Shagger Ploughboy Tonge

If you would like to sponsor Mark, call him on 07708 571411 or e-mail: mark.beecham2@ntlworld.com
